

Hampton Mosquito Control Committee

Meeting
April 2, 2009

Attendees: Ann Kaiser, Rich Reniere, Russ Bernstein

Meeting called to order at 7:02

Ann Kaiser's 2nd term on this committee has run out and she announced her desire to not be re-appointed. Rich will ask to be added to the BOS agenda to notify them of this development and to ask them to appoint a new member. Ann, who has done all of the work for this committee during her tenure, will be sorely missed and difficult to replace!

We discussed the State's request to post all future meeting dates. Since we call our meetings on an as-needed basis, we decided that we would list it as such and wait for their response.

Our contractor, Dragon Mosquito, did not spend \$2,462.50 of the money that was allocated last year due to fewer adulticiding hours. This money stayed in the general fund.

Of the \$23,578 (25% of the \$94,312 spent on mitigation) requested last fall from the state as reimbursement, we received \$15,090 on 3/9/09. This, too will be added to the general fund and is a direct result of Ann's dogged efforts.

Rich and I signed the 2009 contract with Dragon Mosquito. Ann did not because she is technically no longer a member of the HMCC. She will ask Fred Welch to sign instead.

Meeting adjourned at 7:40.

Respectfully submitted by Russ Bernstein
